## ZERO WEATHER IS EXPERIENCED BY WEST KENTUCKY

Coldest Felt in This Section in Many Years Last Night

Much Suffering Continues in the West.

### REPORTS FROM ALL SECTIONS.

Paducahans experienced their first zero weather this year today. It was the coldest day in years, but as a weather man is lacking no official reading of the thermometer could be taken. However, it is the general belief that the mercury went down between two and three degrees below the cipher mark.

Some thermometers marked the lowest temperature six degrees below zero and many still cling to the belief that it was that cold. At the river this morning at 6 o'clock the thermometer registered two degrees below and at 7 o'clock it was at the zero mark. At 8 o'clock it was at four degrees above and since that time moderation set in. At Lovelessville it was reported six below. At Hard Money it was reported 12.

The day dawned clear and bright and not a cloud to check the rays of the sun was visible. Towards noon the snow began melting slightly although it was too cold for any great thawing. Ice was plentiful in the Ohio river and in the river between here and Carlewille, where the immense gorge is still holding. Steamboat movements are greatly handicapped around this port.

Constant work of crews yesterday over the lines of the Paducah Traction company resulted in the operation of all street cars being resumed today.

### Chicago Coal.

Chicago, Jan. 7.—The supply of coal in Chicago is so reduced that dealers were powerless to supply the demand from many manufacturing institutions that are facing a shut-down unless relief comes within 48 hours. Thousands of car loads are reported waiting on sidings because of the lack of locomotives to move them.

### Coal Has Right of Way.

Des Moines, Ia., Jan. 7.—Telegrams to Governor Carroll and the railroad commissioners from the Northwestern, Rock Island and Milwaukee railroads officials stated that they will give coal shipments full right of way and do their best to comply with the governor's request to relieve the coal famine. Coal trains are moving on the Northwestern and Rock Island from the Illinois fields.

### Ten Trains Blocked.

Butte, Mont., Jan. 7.—No trains arrived at Butte or left for the east on the Northern Pacific since Tuesday night. At Grey Cliff 10 passenger trains are held up by a snow blockade.

### Ice Gorges Break Up.

Cincinnati, Jan. 7.—Both the Little Miami and Meigs Bar ice gorges, which threatened the destruction of shipping here, broke. Last night flows were moving easily down the river. The river is now open at all points.

### Twenty Below in Iowa.

Waterloo, Ia., Jan. 7.—With two feet of snow and the temperature 20 degrees below zero, Waterloo is shivering as the result of a scarcity of coal.

### Trains Lost.

Helena, Mont., Jan. 7.—Northern Pacific officials today are starting a search for two passenger trains and one snow plow. An engine was sent out to find the plow. The trains are stalled in drifts between Livingston and Columbus. The snow plow was sent out after the second train stalled to dig it out. The engine was sent to find the plow, and all are stuck. Some passengers are said to have waded back through the drifts to Columbus. It is feared some are suffering from exposure and cold.

### Idaho Free.

Wilmington, Del., Jan. 7.—The battleship Idaho got loose from the mud bank this morning and sailed for Sandy Hook.

### Frozen to Death.

Winnipeg, Man., Jan. 7.—Seven deaths are reported from the blizzard along the Minneapolis, St. Paul & Sault Ste. Marie railroad. Sheriff Whitehead, of Wrynburg; Joseph Clark, a homesteader named Helburn; Lawrence Estlund; Andrew Coleman; Clem Bradley and a little boy, found in haystack, near Yellow Grass, comprise the list.

## Sincerity of President Taft is Indicated by Special Message to Congress on Interstate Commerce

He Recommends Greater Powers in Commission and Review Court and Favors Federal Incorporation.

Washington, Jan. 7.—President Taft today sent to congress his delayed message on the interstate commerce and anti-trust legislation. In it he urgently recommends a commerce court of five judges as a court of appeals from interstate commerce rulings, and recommends new features in the liability law; declares state control corporations; declares in favor of centralized power of control, and strikes at the hiding companies as now used as trust formations.

He demands that railroads be forbidden to control competitors, and suggests an increase of power for the interstate commission. He says the difference between good and bad trusts is impossible to define, and urges a federal corporation act, giving the government the regulating power. He says the law is not intended to supersede the Sherman law but to strengthen it.

He specifically recommends federal charter act, applying to manufacturers and marketers in interstate commerce, to protect corporations from state interference and prevent stock issues in excess of property values or real money subscriptions.

He wants complete reports to the department of commerce to prevent corporations acquiring and holding stock of other corporations, and to empower the interstate-commerce commission to approve the amount of stock and bonds issued by roads. He would prohibit roads from acquiring the stock of or leasing competing roads, would give the shipper the right to select a through route; would empower the commission to investigate on its own initiative any rate on announcement; would compel carriers to quote rates in writing to shippers on request; would make employers' liability open to easy enforcement instead of only at the home of the defendant.

He favors the creation of the commerce court with power to enforce all orders of the interstate-commerce commission; to review appeals from the commission's rulings; to handle cases arising from the Elkins act and other commerce cases that now go to the United States circuit courts.

### Glavis Denies Charge.

Portland, Jan. 7.—Glavis denies absolutely that the statement in his charges against Ballinger are false, as stated by Attorney General Wickensham. He says Wickensham's report by no means ends the case. "The people of the United States," he said, "are better qualified to determine who is right in this controversy, than a prejudiced attorney general. Pinchot is honest. Anything he says about the case can be relied on. I am willing to let the case rest on the Forester's statement." He intimated that Wickensham reported just what men higher up wanted him to report.

### House Adopts Rule.

Washington, Jan. 7.—The house unanimously adopted the special

## Italian Consul Will Complain of Police

Chicago, Jan. 7.—International complications may possibly follow efforts to capture the murderers of Cenni. Suspects arrested at noon numbered 197. More are brought in hourly. Guido Sabetta, the Italian consul, announced he would investigate the crime, and ask his government to demand an explanation from the United States of the "high-handed police methods." Police, aided by the white hand hope to catch the slayers before Sunday.

### Revival Next Week at First Christian

Preparations are being made at the First Christian church for the beginning next Sunday of a protracted meeting. The Rev. W. A. Fite, pastor of the church, will be in charge of the services and will do the preaching. He will be ably assisted by the Rev. E. Clare Harding, of Mexico, Mo., who arrived this morning, and will be in charge of the chorus and singing. The Rev. Mr. Harding requests all the members who have promised to help in the singing to be on hand at the church tonight at 7:30 and tomorrow morning. The meeting will continue on indefinitely and the prospects point towards one of the most successful revivals ever held in Paducah.

rule, providing for consideration of the Ballinger-Pinchot investigation resolution.

## BOARD OF HEALTH FAVORS THE CAMP

MAKES RECOMMENDATION IN ANNUAL REPORT TO GENERAL COUNCIL.

In the annual report of the board of health, which was adopted this afternoon and will be submitted to the general council, it is stated that there was 376 deaths during the year, of which 22 were non-residents, giving an average mortality of 12 in the thousand, considerably under the average of municipalities. Of this number 68 were from tuberculosis, twice as many as from any other cause. The board says the health department has placarded homes, and physicians are reporting cases promptly. The board recommends a tuberculosis camp outside the city limits, and if the general council acts favorably the Jackson Hill project probably will be undertaken.

### Mr. C. S. Houser Is Ill.

Mr. C. S. Houser, who is 96 years old, is critically ill of pneumonia, and is not expected to live owing to his advanced age. He resides at Florence station and his son, W. T. Houser, of Paducah, Texas, has been called to his bedside. He is an uncle of Sheriff George Houser.

### MR. GEORGE STOVALL PASSES AWAY AT HIS HOME.

Mr. George W. Stovall, 76 years old, living on Lincoln avenue, died at 3 o'clock this morning of general debility. He leaves a wife and several children. The body will be taken to Boaz, Ky., tomorrow morning, where the funeral and burial will be held.

### CARCASS OF HORSE FELL INTO CISTERN

As a result of striking an unsafe cistern, J. Traugher lost a horse valued at \$100 last night. He was delivering coal for the Gardner Coal company, and unloaded some coal at Cartwright's saloon, on Kentucky avenue. As he drove away the horse stepped on an elevated place, but the driver thought it was an ash pile. The rear feet of the horse plunged through the covering on the cistern and both legs were fractured. It was necessary to kill the horse. The carcass fell into the cistern.

## JUDGE BARKLEY'S PLANS OUTLINED IN LONG MESSAGE

Makes Plain to Fiscal Court What Work is to be Done For County.

Favors the Appointment of a Purchasing Agent.

### HE NAMES HIS COMMITTEES.

RECOMMENDATIONS.

- County purchasing agent.
- Annual auditing and inspection of county records.
- Graveling of all main roads to county line.
- Wipe out present debts and pay \$150,000 of bonded debt of \$450,000.
- Reforms in county institutions if necessary.
- Allow claims only on order of fiscal court.
- Let county road work by private contract.
- Economical, clean and business-like administration.
- Wider roads and improvement in method of working the dirt roads.
- Require commissioner to check treasurer's report with the fiscal court order book and clerk's stub book.

McCracken county's newly elected magistrates met this morning and organized the new fiscal court. Perfect harmony reigned at the meeting, and politics did not enter into the make-up of the board, despite the fact that the court is divided evenly. County Judge Alben Barkley called the court to order and delivered a talk to the magistrates on the policy of the new administration, after which he named his committees.

Green Bennett, who was the Democratic nominee from the Seventh district, took his seat, as he was awarded the certificate of election over J. B. Walton, the Republican nominee, on a clerical error. Mr. Walton will not take his seat until after the decision of the court. G. M. Spitzer, Republican from Fifth district, assumed his seat. John Craig, the Democratic nominee, has contested the election, but Mr. Spitzer will hold until ousted by a court decision. Whatever decision is handed down in the circuit court it is certain to be appealed by either side.

### Committees.

County Judge Alben W. Barkley announced the appointment of his committees. The Republicans have the majority in the finance and court house committees, and an even break in the poor house committee. On the road committee the county magistrates were appointed as they are more familiar with the needs of the roads. The committees are:

Finance—Magistrate Bleich, chairman, and Magistrates Emery and Walton.

Jail—Magistrate Householder, chairman, and Magistrates Ross and Bennett.

Court house—Magistrate Emery, chairman, and Magistrates Householder and Walton.

Poorhouse—Magistrate Kuykendall, chairman and Magistrates Ross, Spitzer and Bleich.

Roads—Magistrate Ross, chairman, and Magistrates Bennett, Kuykendall and Spitzer.

Bids for Court House Work.

Judge Barkley announced that it was time to make a new contract for the cleaning and heating of the court house, and keeping the yard in trim. He suggested that it would be more economical to let the contract to one man for the entire year, instead of having one man during the summer for the yard and another man during the winter. Magistrate Bleich made the motion, which passed, that a special committee be appointed to receive bids, and to report the lowest bid to the court for its acceptance. Judge Barkley appointed Magistrates Walton, Emery and Ross as the committee. The committee will meet next Monday afternoon at 2 o'clock for the purpose of receiving and opening bids.

A bill for \$70.74 was presented by C. A. Crossland, official court reporter, for a transcript of the evidence in the case of Hiram Smedley. The bill was from the circuit court and stated that Smedley was insolvent, and the circuit court directed the fiscal court to allow it, which was done.

County Judge to Purchase.

Magistrate Emery made the motion that the county judge be made the purchasing agent of the county, and the motion was passed. Before

## Explosion of Stove in His Office Causes Death of Dr. J. D. Pryor, of Mayfield, at Riverside Hospital

One of the Ablest and Best Known Practitioners in this Part of State—One of His Eyes Was Removed.

Dr. Pryor was born in Graves county, three miles east of Mayfield, July 5, 1862, and had reached the ripe age of 48 years. He lived with his parents there until he was 24 years old and decided to study medicine. He attended the medical school at Clinton, Ky., for three years, and after receiving a well merited diploma, he studied at the Louisville Medical college until he was 30 years old, when he was graduated. Returning to his home he began the practice at Mayfield. He was considered one of the best physicians of that county.

After returning from college he was married to Miss Annie Watts at Mayfield. She died several years ago. No children survive. Dr. Pryor was identified with the First Baptist church at Mayfield and was a willing church worker. In addition to his religious work, he was active in lodge circles, being a member of the Masons, Odd Fellows, Woodmen of the World and Elks. He was also a member of the Daniel Boone club of that city and formerly belonged to the Knights of Pythias lodge.

He is survived by his father and mother, Mr. J. C. Pryor and Mrs. Emma Pryor, now residing at the old home near Mayfield. He also leaves four sisters and two brothers, as follows: Miss Laura Pryor, Mrs. Cora Melvin, Mrs. Nancy Melvin, Mrs. Susan Overby, all living in Graves county near Mayfield, and Messrs. B. B. Pryor, of near Linnville, and James Pryor, of near Farmington. The body will be taken to Mayfield at 4:15 o'clock this afternoon over the Illinois Central railroad. The funeral has been set for 1 o'clock tomorrow afternoon with burial at the city cemetery. The funeral will be in charge of the different lodges in which he held membership.

Dr. Pryor was widely known here and his death caused much sorrow among the physicians of this city.

## HANNAN ELECTED UNANIMOUSLY BY THE COMPROMISE

Board of Aldermen Breaks Its Third Annual Deadlock Today.

Republicans Get the Finance Committee.

### THE FARLEY PLAN PREVAILS.

President—Ed Hannan.  
Committees:  
Republican—Finance, public improvement, judiciary, enrollment, printing, cemetery, fire and police.  
Democratic—Street, hospital, sewer and sanitary, ordinance, relief, light and water, railroad, telegraph and telephone and license.

After the third annual deadlock the board of aldermen was organized today by unanimously electing Ed Hannan president, on his agreement to abide by the terms of the compromise that the Republicans should have the chairmanship of the finance committee and others selected by lot. All voted for Alderman Hannan but himself. He supported Alderman Van Meter, his first opponent.

The result is what the Republican aldermen contended for from the first, and the proposition for the compromise came from Alderman Farley. The Democrats caucused and Alderman Stewart told Alderman Farley they would agree.

They all voted for Alderman Hannan and then the names of the committees were placed in a hat and Clark Bonduant, reporter for The Evening Sun, was blindfolded and drew out the slips, which he handed to the clerk. The Republicans had won the toss for first choice, and the committees came out as stated. Each party will caucus and choose its chairman for the committees assigned it, and President Hannan will appoint them accordingly.

The Contest.

The board stands four and four on party alignment. Aldermen Hannan, Lackey, Stewart and Potter being Democrats and Aldermen Hank, Oehlenschlaeger, Van Meter and Farley being Republicans. The latter said they did not care for the presidency, but since the city administration is Republican, they felt that they should have the chairmanship of it, being a fair exchange for the presidency of the board. The Democrats refused to agree to this. Then the Republicans offered to cast lots to break the tie or to vote for Hannan and cast lots for committees.

When the Democrats refused to concede anything, but were determined to have the president framed by promises or to do lack, the board proceeded to business. City Clerk McIntyre appeared, but was unable to preside, and City Solicitor Campbell took his place at the night session. Alderman Potter nominated Alderman Hannan and Alderman Farley nominated Alderman Van Meter.

They voted until after 10 o'clock without result and adjourned until 10:30 this morning, when City Clerk McIntyre was able to preside. After the eighth ballot, the compromise was agreed upon.

President Hannan.

This is Alderman Hannan's second term as vice-mayor and presiding officer of the upper board, and he has been uniformly fair in his rulings. He is also serving his second term as alderman, and has been the leader of his party in the board since his first election.

It is probable that Alderman Van Meter, who was on the finance committee in the council board, will be made chairman of the finance committee. The aldermanic committees will not be announced until after President Foreman, of the board of councilmen, appoints his committees. The personnel of his committees will determine the personnel of the aldermanic committees.

## NEW TARIFF LAW MAKES QUESTION

THE PROPER CLASSIFICATION  
OF MANY ARTICLES.

Board of General Appraisers Will  
Hold Meetings in the Various  
Cities.

THE DATES ARE DESIGNATED

Washington, Jan. 7. (United Press.)—In the administration of the new tariff law, as in all others, questions are continually arising as to the proper classification of articles. For instance, there is now pending a question with relation to men's suspenders, which might be imported under three different rates of duty according to their quality or differing constructions of sections of the law. Or all suspenders, whether made of silk, wool or cotton, might come in under one rate as webbings. That matter will be threshed out before the board of general appraisers and will finally, undoubtedly, have to be settled by the courts.

Somewhat similar questions are occurring all the time and it is important to importers as well as to the treasury department to have them settled as early as possible.

There are also questions arising as to whether the value of a certain lot of imported goods has been correctly appraised or not.

In both of these classes of conflict between the importers and the treasury department the matter is always referred to the board of general appraisers in New York. In view of the fact that these subjects of dispute are continually occurring at all of the principal ports of the country, and that considerable inconvenience and delay would necessarily result from their reference to the board in New York, it is customary for that body, as a whole, or by sending one of its members to visit the chief ports for the purpose of hearing complaints, just as the supreme court of the United States hears cases in the districts over which they have special jurisdiction.

With this end in view a regular series of dockets has been drawn up by the board for the hearing of cases at other ports than New York during the coming year.

The trial of such customs appeals will begin at 10 o'clock on the morning of the day appointed and importers and their counsel are warned, through a circular issued by the treasury department, to be prepared to proceed immediately to trial.

The following are some of the duties designated by the board of general appraisers upon which cases will be heard at different ports:

Chicago, February 2, April 6, May 4, July 6, September 7, October 5 and December 7.

Los Angeles, May 26 and October 27.

Portland, Ore., May 14 and October 15.

St. Louis, April 11 and September 12.

St. Paul, May 7 and October 8.

San Francisco, February 10, May 19 and October 20.

Seattle, Mar. 12 and October 13.

### News of Theatres

"Mistress Dorothy" a Hit.  
"Mistress Dorothy," the musical vaudeville skit, by Professor William Deal, made a hit on its presentation at The Kentucky last night, and will be repeated tonight. The music basis score is tuneful and the story is brightly told by dialogue and action. The cast, which pleased last night, will make a tour of the vaudeville houses with "Mistress Dorothy" and it will add to the strength of any bill. The cast is:

Nick Sopp, the village cobbler—Mr. Lovell Bryan.  
Sir Richard Trivett, manager of King's theater in London—Mr. Chas. Andrew.

Sidney Giles, a poet—Mr. William Farrow.

Dorothy Rymple, the dancer, Miss Estelle Merode—Ruby Detzel.

The musical numbers are:  
Opening prelude and waltz, "The Mistress Dorothy Dance"—Mistress Dorothy.

Characteristic song, "A Merry Rundelay"—Sopp.

Ballad, "Dear Heart"—Sidney.

Song and dance, "Carmena"—Dorothy.

Duet, "The Lesson in Love"—Dorothy and Sidney.

Tropical song, "The Story of Punchinello"—Sir Trivett.

Humorous trio and dance, "An Old Ditty"—Sopp, Sidney and Sir Trivett.

Finale, "Dorothy, the Dancer"—Entire Company.

No further room is left for wonderment at the possibilities, versatility and resourcefulness of George M. Cohen, who creates, develops and finishes an elaborate, dashing and animated production of a characteristic type and wealth of popular material without requiring assistance on any detail. The name is a talisman of contemporaneous success, and now we have his latest creation, "The American Idea," with the charming comedienne, Trixie Friganza, as the central figure, coming to the Kentucky theater, for one performance only, on Monday evening, January 10.

"The Girl from Rector's" comes to the Kentucky, January 8. Paul M. Potter directed the farce from the French, and has made the play

over, it is claimed, into an American offering.

"East Lynne," without exception the greatest emotional drama ever written, will shortly receive presentation at the Kentucky Saturday, January 15, by Joseph King's New York company, matinee and night.

## PULL OUT A HAIR.

The Way to Tell Whether or Not Your Hair is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic. You can make a test yourself that you can see and understand, which will tell you whether your hair is healthy or not. Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try our Rexall "93" Hair Tonic. We promise that it will not cost anything if it does not give satisfactory results. Rexall "93" Hair Tonic is designed to overcome dandruff, relieve scalp irritation, stimulate the hair roots, tighten the hair already in the head, grow hair and eradicate baldness.

Out of 100 cases where it was given a thorough, conscientious test, it grew hair on 93 heads, which should be sufficient proof that Rexall "93" Hair Tonic contains extraordinary remedial and hair-growing qualities. It is because of our knowledge of this preparation and our sincere faith in its goodness that we want you to try it at our risk.

Rexall "93" Hair Tonic is a clean, clear preparation which does not grease, gum or thicken the hair, and it has a very pleasant odor. We have it in two sizes, prices 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Paducah only at our store, The Rexall Store, W. B. McPherson, Fourth and Broadway.

## What Can a Poor Woman Do?

England, it is estimated by Animal Friends, uses 20,000,000 skins yearly. Europe, 150,000,000; America, 50,000,000. Yet back of the feather merchant and plume-hunter who supply the skins are the men who make a fashion for women and then impose it upon them, subtly, irresistibly. Much effort has been expended toward inducing women not to follow a fashion that is set. The futility of that! For, "What can a poor woman do?"—From "Who Killed Cock Robin?" in Everybody's Magazine.

Life is too full of trials, and few of us may hope to escape conviction.

## SEATS UNCERTAIN IN PARLIAMENT

SPEAKER OF HOUSE OF COMMONS CHOSEN FOR LIFE.

Premier Asquith Will No Doubt Win in His Old District of East Fife.

FEW ARE SURE OF ELECTION.

London, Jan. 7.—The English political situation is so uncertain that those of the 660 aspirants nominated or still to be chosen, for seats in the next parliament, not more than seventeen are considered certain of election. One is the Rt. Hon. James Lowther, speaker of the house of commons. By custom the speaker is chosen for life, and consequently entitled to re-election after re-election.

Premier Asquith assuredly will win in his old district of East Fife, Chancellor of the Exchequer Lloyd George cannot lose Carnarvon, and War Minister Haldane and Foreign Secretary Grey are safe in Haddington and Berwick, respectively.

The only member of the present cabinet who is in the least danger is Postmaster-General Buxton, of the London ward of Poplar.

Most of the big Conservatives are equally certain of re-election. Arthur J. Balfour, the Conservative leader, and Sir Frederick Banbury, the keenest obstructionist in parliament, are certain of success. They are the two representatives from the original city of London, a patch one mile square in the heart of the metropolis. It is the center of the financial district and, unlike the erratic outer London wards, is always conservative by 10,000 or 12,000 majority.

Joseph Chamberlain will dictate the seven Birmingham seats, as usual. He will have a contest, however. The Liberals made the mistake in 1906 of leaving him unopposed, as a result of which he stumped the country at large and did incalculable damage to the Liberal candidates. This time he will have to remain at home to fight his own campaign.

The labor leaders, Arthur Henderson, J. Keir Hardy, Ramsay MacDonald and George Barnes, will win easily.

The London Express changes President Churchill, of the board of trade with concealing from the public department statistics concerning the prosperity of American workmen, thinking they would prove an impetus to the protection movement in England.

## FIRE

Destroys One Wing of the Summer Palace of King of Greece.

Athens, Jan. 7.—The royal summer palace at Tatoi caught fire while the royal family was gathered around a Christmas tree. The flames spread and rose to a great height, and soon the right wing of the palace was practically destroyed. The firemen were assisted by British and Russian sailors. The fire is believed to have been due to the illuminations of the tree, and the efforts of the attendants of the palace to extinguish the flames were fruitless. The royal family hastily escaped and nobody was injured.

Most women admire their husbands from a sense of duty.

## Bowel Tonic For Old Folks Free

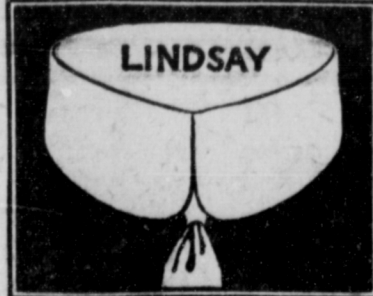

No matter how sound and healthy old people are they still suffer with their bowels. The machinery of the system doesn't work as it did when they were young and active. But while you can't restore youth you can help age to live more pleasantly.

That a laxative is needed every little while by people as they get around fifty and beyond there is no doubt, but it is important which laxative is taken. Old people, women and all, except those who are in the prime of life, should avoid anything that gives a shock to the system and which at best is but a temporary expedient. Among these are pills and cathartic tablets, salts and purgative waters. They are too strong and only do temporary good. Not only that, but they really bind the bowels next day.

What you want is something that will regulate the bowels and again get them in the habit of performing a certain function at a certain time, while at the same time toning and strengthening the muscles of the stomach and bowels. Such a remedy is Dr. Caldwell's Syrup Pepsin, and if you have never used it let the doctor send you a sample bottle free of charge. This way you can try it without cost. All druggists sell it at fifty cents and one dollar a bottle, and those who buy it will soon continue to buy it. It is pleasant to take, very effective and very economical as a household remedy, as all the family can use it. But Dr. Caldwell is eager to have all readers unacquainted with it to send for a free sample.

Thousands of old people and heads of families are never without it, for in this way they cure and avoid constipation, liver trouble, indigestion, sour stomach, sick headache, sleeplessness after eating, belching and similar stomach, liver and bowel disturbances. Mrs. Tullie Homan, 404 Wautanga street, Knoxville, Tenn., and T. H. Marshall, Nall, Okla., as well as thousands of others, attribute much of their present good health to this grand laxative tonic.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 30, Caldwell building, Monticello, N. Y.

## SOLD SHOVEL

STOLE A DOLLAR'S WORTH OF COAL AND LOST LOAD.

Unknown Beats Isaman Coal Company on His First Delivery.

Having been employed as a driver by the John Isaman Coal company, at Ninth and Harrison streets, only a short time before he made his first trip an unknown man beat his employees out of \$1 worth of coal and a shovel, and "lost" their delivery wagon, which was found several hours later by the police.

The unknown, wearing a corduroy cap and a red muffler, made application at the coal office for work at 1 o'clock yesterday afternoon and was sent out to deliver \$1 worth of coal to 1034 Harrison street. He delivered the coal and collected the money, which he pocketed. The next step was to dispose of the big coal shovel, which he accomplished. Driving the mule and wagon to Ninth and Jackson streets the unknown left his seat and has been missing ever since. The police were notified of the missing wagon and located it where it had been left standing about 4 o'clock yesterday afternoon. The man was described as being about 25 years old with a chubby face.

## Work 24 Hours a Day.

The busiest little things ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, languor into energy, brain-fog into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. 25c at all druggists.

## PULLED IN HOLE

MAN DISAPPEARED UNDER A TENEMENT HOUSE.

Tunnel Extended Toward Big East Side New York Bank, But Caved In.

New York, Jan. 7.—The case of a man who crawled into a hole and pulled the hole in after him is puzzling the police. There is more interest in the hole than the man, for cursory inspection showed that from a tenement house cellar the hole stretched into a tunnel pointing toward the vaults of the East Side branch of the Fourteenth Street bank with deposits of \$10,000,000,000 and toward a jewelry shop next door whose safe had \$60,000 worth of diamonds and jewelry.

Isidor Garbus told the police that his brother-in-law, Isaac Finkelstein, has disappeared. He was last seen, he said, in the cellar of the tenement house where he lived. Isaac had gone down stairs to gather firewood and did not return, and under a woodpile Isidor found a mound of earth.

The police uncovered an aperture in the cellar wall three feet across and pitching downward under the street. The exploration of the tunnel beyond was stopped by what seemed a collapse of earth and boulders. Fearful of further collapses the inspectors dug down from the street level. Beyond the first obstruction a fork in the tunnel was found, one branch heading for the bank vaults, the other for the jewelry shop. The diggers uncovered 50 feet of burrowing with no trace of Finkelstein yet. Garbus is held as a witness.

## Sad Death of a Cherubim.

"Two city boys," relates E. S. Bruce, of the forest service, "went shooting in the woods. As they passed a ruined house on their way home at dusk, a huge owl flew out. One of the boys raised his gun and fired. The owl, with an unearthly shriek, fell fluttering to the ground. The awed boys peered through the twilight at the great round face and outspread wings.

"Gosh!" whispered the younger. "Dear knows what'll happen to us. We've gone an' shot a cherubim!"

## RUSSIA WILL TAKE FINLAND

PROTECTORATE MAY BECOME INTEGRAL PART OF EMPIRE.

Privileges and Rights Enjoyed by Finnish People Are Inconsistent With United Russia.

ACCORDING TO PRESENT PLAN.

St. Petersburg, Jan. 7.—That Finland shall become an integral part of the empire, and not remain a mere protectorate, is the avowed purpose of the Russian government in its dealings with the grand duchy. The privileges and rights the Finnish people enjoyed according to the constitution granted by a pure autocracy are considered inconsistent with the idea of a united Russia under a constitutional government.

From the published documents embodying Russia's intentions, it is piecemeal according to the constitution, but be of it; not merely to accept protection and the freedom afforded by it, but to take up a fair share of the burdens of the empire, side by side with other races that are united under the scepter of Russia.

If the offer be rejected, Russia, for safety's sake, may be compelled to take drastic action.

There is a special reason why the question must be settled now or not in a generation, when Russia herself will have made more progress on the constitutional path. This reason is to be found in the geographical situation of Finland.

The Finnish territory runs within thirty miles of the capital of the Russian empire, and there are no natural barriers in the way of an invading army, once it effects a stronghold on Finnish territory.

For a century past the Finns have enjoyed the freedom of their ancient and somewhat primitive government. They have no desire now to take any share in the affairs of the empire. They desire merely to be let alone.

FRIDAY, JANUARY 7.

## Daily Thought.

No one was ever yet made utterly miserable excepting by himself. We are, if not masters, at any rate, almost the creators of ourselves. Epictetus.

A library that shows an increase of 7,000 annually in the circulation of books, is an institution which is accomplishing good in the community and should be liberally provided for by the city.

All the psychological effect of suggestion in taking medicine will be lost, if the contents must be frankly told on the outside of the bottle.

Life insurance companies now propose to furnish nurses to policyholders. It is getting so the player has no show against the house in any kind of a game. The percentage eats up the odds. You go on paying premiums and they just won't let you die.

Possibly the reported disciplining of insurgents by President Taft refers only to such insurgents as have indicated an intention not to abide by the spirit and letter of the last Republican national platform, in which case they are not entitled to participation in the distribution of patronage as members of the dominant party.

Hundreds of people, friends of W. J. Vickery, postoffice inspector recently transferred to the Fifth district, comprising Ohio, Kentucky and Tennessee, with headquarters at Cincinnati, will welcome him back, though they regret losing Inspector Holmes. Mr. Vickery was first appointed to this district in 1880. He was transferred to Washington; but was at Kansas City, when the last transfer was made back to his first position. He is one of the best and most thorough men in the service; but fair and considerate in his relations in the department.

## FIRST CATCH YOUR KIDNAPER.

Too many cooks may spoil the broth; but it is observable that in popular government everyone desires to be the cook, leaving to others the duty of gathering the fuel, carrying the water and catching of the fish. Especially catching the fish seems to be left out of the calculation of the majority of us. Because a little girl was stolen from her home at Louisville, everybody is eager for the enactment of a law, providing drastic punishment for the offense. When that is done we shall recline in the luxury of an easy conscience, utterly ignoring the fact that we must first catch our kidnaper and then punish him; and in this particular case our kidnaper hasn't been caught. The weight of the penalty is of less consequence than the extent of its application, in securing results.

## THE PROFESSION OF TEACHING.

There are certain absolute facts in the solution of all economic problems, which should be easily grasped and must be adhered to, if the solution is to be a real, effective and permanent solution. This is true of the problem of improving our school system. The town with the best equipment and the finest buildings may have the poorest schools, and the log school house with handmade appliances for teaching the rudiments of physics, may be an elevating influence for the whole community. It all depends on the teacher, as it always has and always will.

Let us answer the question, who is the best teacher yankeewise, by asking another: who is the best lawyer? The reply must be, he who gives up his life and energy and zeal and soul to the study and practice of the law. Just such a one should be that person, who next to parent, occupies the place of power in the lives of everyone of us—our teacher.

When teaching in America is made a profession in itself, paying an adequate salary for one to whomsoever meets the qualifications and accepts the profession, instead of being a stepping stone to something more remunerative, our school problems will be solved, as far as the teacher is concerned. Now, it is true that teaching is a profession to many women; but there are also many men who are better adapted to it, and our schools are suffering from a lack of them.

Another thing our public school system should observe is closer relationship to the needs of the community. Pupils will go from school into trades and professions. While a broad foundation of knowledge and culture is desirable and advan-

tageous, the special needs of a community can be considered without in the least diminishing regard for the foundation principles. The rural schools certainly should pay some attention to the chemistry of soil and agricultural subjects, as well as stock raising. Especially is this true of a county High school. Greek roots are all right, but they are not indigenous to the soil of Kentucky. There are other kinds of roots to be grubbed out.

Because teaching is not a profession, as we understand a profession in practice, these subjects have not been given general intelligent consideration heretofore by an organized force of sufficient influence to swing public sentiment. Our normal schools are doing good work in this direction, and occasionally one of our scholars goes abroad and returns home with new ideas.

One of these is Professor E. George Payne, now instructor in the East Kentucky Normal. He spent two years in Germany and hits the nail on the head in the preface to his report to the state school superintendent on the German School System, when he says:

"The system of schools in each state is thoroughly organized with a head appointed by the ruling authority. From this central authority, the whole school system is organized. This central authority in Prussia, at least, designates what shall be taught the requirements of teachers, and indeed all matters of school policy. Yet the system is in no sense an autocracy. For very definite reasons, which will appear later in the discussion, there is far greater freedom for the exceptional teacher to demonstrate his ability than in our own land. This greater opportunity lies in the appointment and retention of teachers. There are certain requirements which the teacher must meet before he can be admitted to the teaching body. These qualifications, as we shall later see, are clearly defined, and are not impossible. They are uniform and uninfluenced by graft or favoritism. Qualifications are necessary and when these are met, the teacher is licensed to teach and when he has proven his fitness, he can not be summarily dismissed. He is employed for life and no power can dismiss him except for immorality or for violation of the law. The teacher is absolutely free from the entanglement of politics, and the necessity of 'playing' to the school board. He is permanently employed at a salary which will support himself and family in his station of life, and, after faithful service, in case of inability or age he is rewarded with a pension. This makes the teacher secure for life. He does not need to worry over his future, and therefore he is free to give his whole time to the service of the community and state. He is likewise not dependent upon the will of anyone for his position and can exert the best that is in him fearlessly in the interest of what he feels and what the profession recognizes as right."

## HIRAM SMEDLEY

CASES MAY BE TRIED AT THIS TERM OF COURT.

Five Prisoners Are Sentenced in the Circuit Court—Criminal Docket.

Several of the indictments against Hiram Smedley, charged with misappropriation of public funds, embezzlement of public funds and uttering and publishing as true forged documents, will be taken up at this term of the criminal court. This morning Commonwealth's Attorney John G. Lovett said he had not decided what indictments he would try Smedley on but would select them by tomorrow. The criminal docket has about been disposed of. At the last term Smedley was given six years for embezzlement of funds, and now is in jail pending an appeal on his case.

**Five Sentenced.**  
Five prisoners were given terms in the state penitentiary this morning in circuit court. All the terms are short as the longest term was three years. Tom Jones and Will Jones, colored, were soaked two years in the penitentiary for stealing two cases of eggs, the property of John L. Lowery, from the wharfoat with two years in the penitentiary each. For selling the eggs as their own they were given one year each, making their terms three years. Jim Cooper, colored, an aid in stealing the eggs, was given one year in the penitentiary.

Corra Easley, colored, was given three years in the penitentiary on the charge of grand larceny. She stole \$25 from J. E. Pegram.

Will Butler pleaded guilty to the charge of malicious cutting and was given one year in the penitentiary. Yesterday he entered a plea of guilty, but the jury failed to agree on a verdict, and was discharged.

For suffering gaming Roy Rudolph, a young insurance agent, was fined \$250 by the jury. He was not in court but was represented by counsel.

The trial of Rufus Ward, charged with malicious cutting, was reset for next Monday.

The trial of Cleo Anderson, charged with malicious shooting and wounding, was continued until the April term owing to the absence of witnesses.

J. E. Graham was excused as a petit juror and J. L. Thompson was empaneled.

Attorney T. L. Creeks presided as special judge while papers were filed in the case of Joseph Smith against James Smith.

The suit of Mills-Guedry Grocery company against E. E. Earnhardt was dismissed as it has been settled.

## Suits Filed in Circuit Court.

W. F. Bradshaw, Jr., filed suit against C. R. Pries for \$200 alleged as the value of two mules not returned by the defendant.

John L. Cochran filed suit against Mrs. Margaret Sleeth and James P. Sleeth for \$1,000 alleged due on a note.

**Chicago Officers Arrest 100 Italians.**  
Chicago, Jan. 7.—The murder by three Italians of B. Sinele, an Italian merchant, because he refused to comply with the Black Hand's demands for money, has been followed by police raids in the north side Italian colony and the arrest of more than a hundred men. Twenty detectives executed a preemptory order that every man found loitering on the streets or in the saloons in the vicinity of the crime be arrested.

## Negro on Trial for Murder.

Alexandria, Va., Jan. 7.—Charged with having murdered Walter F. Schultz, a Chicago artist, in March last, Henry Smith, a negro, was today placed on trial. Smith turned state's evidence in previous trials up on three other negroes convicted of murdering Schultz and now under sentence of death.

It sometimes happens that the man who marries a cooking school graduate would rather fight than eat.

Washington, Jan. 7.—The heroism displayed in saving life on the great lakes nearly a half century ago is recognized in Senator Flint's bill awarding life saving medals to Edwin Spencer, now living in California, Charles H. Fowler, until recently a bishop in the Methodist Episcopal church, and Joseph C. Hartzell.

The awards are an echo of the loss of the Lady Elgin, in 1869. The three men were all students of North Western University and assisted in saving the passengers from the Lady Elgin. Hartzell performed valiant work at the wreck of a schooner in a storm near Evanston.

## Forty-two Fishermen Are Missing.

Canso, N. S., Jan. 7.—Forty-two fishermen are missing and may have perished in the blizzard that has been raging for more than 24 hours. Fourteen men are known to be almost certainly lost and the remaining 28 are being mourned, their chance of escape being regarded as small. Twenty three were from Dover and 19 from Whitehead. A fleet from Canso and Petite de Grat was also caught in the storm, but escaped by skilled boatmanship.

Gifted Paducah Singer Appreciated in Chicago.

The Music News of December 31, published in Chicago, contains a striking picture of Mrs. Alma Hays Reed, formerly of this city, who now makes Chicago her home. Mrs. Reed is visiting her parents in Paducah at present and has given much pleasure by her charming voice and delightful graciousness in meeting the many demands that her visits home always impose upon her. She will return to Chicago tomorrow. In addition The Music News contains the following tribute to Mrs. Reed:

"Mrs. Alma Hays Reed comes from one of the historic families of the southland, and while she is yet but little known in musical Chicago, she has shown herself worthy of her distinguished connections, and fully sustains all the cardinal virtues and artistic accomplishments that characterize her illustrious kith and kin.

"Mrs. Reed has an uncommonly fine voice, ample in range, and easily distinguished as an emotional dramatic soprano. Her phrasing is intelligible, her breathing excellent, her intonations and modulations artistically correct, and her diction so complete the pleasure of her singing is enhanced by being able to understand the words sung. Her interpretation of the music of the masters has distinguished her as a thorough student and eminently successful in a wide range of the very best productions.

"In her renditions of the folk songs of the south, she simply carries the audience with her in rapturous applause.

"Mrs. Reed is the soprano in the Crear Presbyterian church choir, and the leading spirit in the Kenwood Ladies' Quartet.

"Mrs. Reed is spending the holidays in Kentucky, where she will appear several times in musical functions."

#### Miss Sophie Burnett Marries Mr. Edwards, of St. Louis.

The marriage of Miss Sophie Burnett, of this city, to Mr. John C. Edwards, of St. Louis, took place last evening at 7 o'clock at the home of the bride's sister, Mrs. Charles Curtis, 436 Lockwood avenue, Webster Grove, a suburb of St. Louis. The couple left at once for a bridal trip to Chicago and will make their home in St. Louis on their return.

The bride is the youngest daughter of Mr. and Mrs. John H. Burnett, 315 North Fifth street. She is a girl of attractive personality and has a large circle of friends in Paducah. She left several weeks ago to visit her sister, with whom she spends much of her time. The marriage was arranged for this time, but only her family knew of it. The announcement came as a surprise to friends in the city, although her engagement to Mr. Edwards was known. Mr. Edwards is a popular young business man, traveling out of St. Louis. He is a brother of Mrs. Edward Rawls, of this city, and is quite well known here, where he has frequently visited.

At resort hotels, such as those of Palm Beach, women are apt to be fussy about the arrangement of rooms. One may be troubled with insomnia, and order the management to have the transoms, doors and windows screened so that not a ray of light can penetrate or a sound break through and steal sweet sleep. One woman who goes south regularly will not sleep in a room until it has been thoroughly cleaned, with disinfectants scattered about and the carpet fluffed in the sun for a time.—New York Herald.

Miss Eloise Bradshaw has gone to Louisville to be a bridesmaid at the wedding of Miss Mona Hudson to Mr. Robert Cates, of Atlanta, and to attend the number of affairs given the popular bride-elect.

Miss Hudson is to have a large church wedding, on the evening of Saturday, January 15, at 9 o'clock, followed by a reception for the bridal party at the home. The couple will leave that night for a tour of the extreme southern states.

Miss Elizabeth Jefferson entertained for Miss Hudson yesterday with a miscellaneous shower. Miss Helen Hodge gave a charming luncheon on Tuesday. There are a number of pre-nuptial affairs announced for the coming week at which Miss Bradshaw will be a guest of honor, also.

Miss Hudson was the attractive guest of Miss Bradshaw here last winter and made a number of friends.

#### Gas Explosion Kills Three.

Marquette, Mich., Jan. 7.—An explosion of gas at the Lake Superior Iron and Chemical company's furnaces near here caused the death of Charles Dolzell, Chief Engineer John Trudeau, and George Nowak, a laborer. A fourth man, John Dazey, was partially asphyxiated, but will recover.

#### Mystery About Cleared.

Cincinnati, Jan. 7.—With another arrest promised tomorrow the police declare the mystery of the murder of Anna Lloyd on New Year's eve is practically solved. The identification of Henry Cook, one of the suspects, by two girls as one of the two men seen leaving the scene of the crime, is regarded as an important step.

#### Constable Shelton Remains.

Constable A. C. Shelton will continue in harness, as N. B. Tapscott, the Republican nominee of the First district, who was elected, will not qualify. Constable Shelton has made an efficient peace officer, and received many requests not to retire. He will receive the appointment from County Judge Barkley and continue his duties as constable.

#### May Ask for Patrol Boxes.

The joint finance committee of the general council may be asked by Mayor Smith and Chief of Police Singery to provide for the equipment of the Fisherville beat with two special electric reporting boxes.

Two are needed there and one is needed at Seventh and Washington streets. During the night patrolmen can report from the Fisherville beat only at the fire station at Tenth and Jones streets and it causes much inconvenience.

federation for four years and has toured the state giving art criticisms. She has traveled extensively abroad. Her theme yesterday afternoon was "The Painters' Art," and she handled the subject from the artist's viewpoint, giving the entire composition of the picture, including the use of lines and colors, to gain height, breadth, and the subtle effect to which so much attention is paid at the present time. It is these things which untrained spectators are unable to grasp and she explained to them the technique and technical terms used by the artist and critic. Her talk was direct and clear and she illustrated it attractively by a number of notable paintings.

This meeting was presided over by Mrs. Victor Voris, chairman of the Art department, in her charmingly gracious way. Her introduction of Miss Niblack was especially happy as follows:

"Had the honor which is mine today been mine a few days ago, I could only have said: 'I introduce to you one who stands high as an art critic not only in her own city (Indianapolis), for she is not as the proverbial prophet, but is well-known as a connoisseur of all things beautiful, acquainted alike with things accidental and natural, by virtue of her extensive travels, which made her keenly sensitive to the appeal of the artistic. But today, the result of several letters which were certainly fraternal and womanly, with less than 24 hours of actual companionship I can say not only all this but add, I introduce a friend, and you remember what Emerson said, 'Happy is the house that shelters a friend.' You know how proud I am of my club, so I have a duplex pleasure in presenting you to Miss Niblack, and in presenting Miss Niblack to you all, I say, 'you all,' not only meaning all of you, but with the hope that our guest may take away an expression which will help to do as our colored race would say 'remember us by.' I would that our usual azure skies that are so frowning and dull today, were clearly cerulean, that these biting winds were the most seductive zephyrs and that these mundane carpets were of their usual emerald hue, rather than this even beautiful white, that our guest might think of us with the stage setting of the most southern type for 'The light descends the softest in Kentucky, the summer days come offest in Kentucky, here love light glows the longest, yet wrong is always wrongest in Kentucky.'"

Beautiful Japanese Lecture This Morning.

Miss Niblack, of Indianapolis, lectured most charmingly this morning before a representative and cultured audience at the Woman's club house. The subject was "Japanese Prints" and was treated in a delightfully illuminating and comprehensive way. Miss Niblack has traveled extensively in the Orient and her talk was illustrated by many beautiful Japanese prints, a number of which were original. Her interpretation of the beautiful and the illusive qualities of Japanese art was charmingly sympathetic.

Miss Niblack is a delightful speaker and magnetic and her visit to Paducah has been an event of notable club interest.

#### Kalosephic Club.

The Kalosephic club met this morning in the committee room of the Woman's club. An interesting program was presented as follows:

1. Marguerite of Caiais — Miss Helen Hills.

2. Manners and Customs of the Seventeenth Century — Mrs. David Koger.

3. Current Events by Mrs. Edward Bringhurst was given by Mrs. Davis for Mrs. Bringhurst.

INJUNCTION METHOD USED ON RAILROAD BUFFETS.

Lincoln, Neb., Jan. 7.—Attorney General Thompson today filed in the supreme court an application for an injunction to restrain the Burlington and Union Pacific railroads from serving liquors on through trains. Evidence of violation was so hard to secure that the injunction method was adopted.

## ADMINISTRATION WILL HAVE BILL

RUMORS OF OPPOSITION FROM RAILROADS SPREAD RAPIDLY.

Taft Holds Many Conferences With Committee—Railroads Request Electric Carriers.

### ON INTERSTATE COMMERCE

Washington, Jan. 7.—That the administration will have a bill embodying its views regarding amendments to strengthen the interstate commerce law is the expression of those who have been instrumental in framing the measure.

Conferences are still being held by the special committee appointed by President Taft, and drafts and redrafts of unsettled features are being made constantly.

That the railroad interests will object to the measure is expected, but they are being given every opportunity to present their side of the case.

Attorney General Wickersham had a call from counsel representing prominent railroads, who expressed the wish that any legislation giving shippers choice of routes over which their consignments are to be carried shall not apply where electric passenger carrying roads are included. It is understood that assurance was given by the attorney general that it would not comply in such case.

The proposed amendments, it is said, are not to affect express companies.

### Those Pies of Boyhood.

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed? The pies? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50¢ at all druggists.

### FINE TRAVELING CASE FOR LEAVING MANAGER.

In recognition of their esteem for their former manager, Mr. W. B. Harris, the retiring manager of the Paducah branch of the Postal Telegraph company, was presented with a silver mounted traveling case. The presentation was made by J. D. Frey, the night operator. Mr. Harris left last night at 6:15 o'clock for Memphis.

### A Reliable Remedy FOR CATARRH

Ely's Cream Balm is quickly absorbed. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts. at Druggists or by mail. Liquid Cream Balm for use in atomizers 75 cts. Ely Brothers, 56 Warren Street, New York.

### A CLOSE SHAVE.

Many of Them Happening Every Day But Soon Forgotten.

Close shaves would be of more frequent occurrence but for the tender faces of many men, which will not permit of shaving often. Heretofore, nothing has been said in these columns about possum, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been confined almost exclusively to its remarkable properties as an eczema cure; it stops the itching at once and cures the worst cases in a few days. While the application of possum after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation, as it does for abrasions, roughness, and severe scrapings what it does for all manner of skin difficulties—beals and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will soothe and tone up the skin as no toilet preparation could possibly do.

Possum can be had for fifty cents at any reliable druggist's particularly Gilbert's and R. W. Walker Co., who make a specialty of it. Or the Emergency Laboratories, N. 32 West 25th street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

## MAN LOST 104 DAYS IN JAIL

INDIANIAN WAS CHARGED WITH LARCENY OF POTATOES.

He Was Brought to Court on Charge and Sent to Jail, But Magistrate Forgot to Notify Prosecutors.

### GRAND JURY FREED HIM

Indianapolis, Ind., Jan. 7.—Lost to the world, Henry Mulson was found in jail by the Marion county grand jury. Forgotten by his acquaintances and overlooked by busy officials, he had been behind the bars for 104 days without chance to defend himself against the charge of having stolen a sack of potatoes.

The grand jury at once set him free. Mulson was employed on a farm north of this city. One evening last fall, while he was crossing a potato lot, he was stopped by two men, who charged him with having stolen a sack of potatoes, and took him before a justice of the peace at the village of Broad Ripple.

A firm believer in judicial dispatch, the justice summarily bound Mulson over on the charge of grand larceny which placed a value of at least \$25 on the stolen sack of potatoes.

Mulson said he never had seen the potatoes, but he was taken to the jail at Indianapolis and the justice did not remember to notify the county prosecutor.

If Mulson had not been able to enlist the kindly offices of a turnkey, who brought his case to the attention of the grand jury, he might have served for life.

## R. AND H. BILL

WILL CARRY ABOUT THIRTY MILLIONS OF DOLLARS.

The Bill for General Waterway Improvement By Congressman Langley.

### MOTHER TELLS HOW CUTICURA CURED BOTH

"When my boy was six years old, he suffered terribly with eczema. He could neither sit still nor lie quietly in bed, for the itching was dreadful. He would irritate spots by scratching with his nails and that only made them worse. A doctor treated him and we tried almost everything, but the eczema seemed to spread. It started in a small place on the lower extremities and spread for two years until it very nearly covered the back part of his leg to the knee.

"Finally I got Cuticura Soap, Cuticura Ointment and Cuticura Pills and gave them according to directions. I used them in the morning and that evening, before I put my boy to bed, I used them again and the improvement even in these few hours was surprising, the inflammation seemed to be so much less. I used two boxes of Cuticura Ointment, the same of the Pills and the Soap and my boy was cured. My son is now in his seventeenth year and he has never had a return of the eczema.

"I took care of a friend's child that had eczema on its face and limbs and I used the Cuticura Soap and Ointment. They acted on the child just as they did on my son and it has never returned. I would recommend the Cuticura Remedies to anyone. Mrs. A. J. Cochran, 1823 Columbia Ave., Philadelphia, Pa., Oct. 20, 1909."

### FOR SKIN HUMORS

Torturing, disfiguring patches of humor on the skin, scalp or hands are instantly relieved and speedily cured, in the majority of cases, by warm baths with Cuticura Soap and gentle anointings of Cuticura Ointment. For eczemas, rashes, itches, irritations, inflammations, dandruff, dry, thin and falling hair, for sanative, antiseptic cleansing and all purposes of the toilet, these pure, sweet, gentle emollients are unrivaled. Cuticura Soap is to be used on the skin, Cuticura Ointment (5¢) to treat the skin and Cuticura Pills (25¢) to purify the blood. The Pills, 25¢ per box of 60, to Purify the Blood, are sold by Druggists, or by mail, to J. C. Mitchell & Warden, 123 Broadway, New York City, or by mail, to J. C. Mitchell & Warden, 123 Broadway, New York City.

## MEDIATORS GIVE UP ALL EFFORT

SECURING SETTLEMENT OF THE SWITCHMEN'S STRIKE.

Perham Much Annoyed—Turn Affairs Have Taken—Knapp and Nell Will Arbitrate.

### CHICAGO DISPUTE SATURDAY.

Washington, Jan. 7.—All efforts to secure an adjustment of the strike of the switchmen of the northwest have been abandoned. Chairman Knapp of the interstate commerce commission, and Commissioner of Labor Neill, the mediators under the Erdman act, at the final conference today with Perham, determined that nothing could be done to effect a settlement. Knapp gave out a statement that the conferences have been adjourned without accomplishing anything definite. If any new developments occur and if the outlook for an amicable adjustment becomes more promising the mediators will again attempt to bring about an adjustment.

Perham was keenly disappointed by the failure to bring about a settlement. He expressed astonishment at the abandonment of efforts and at once had another interview with Knapp. The latter assured him that if the mediators could be of service in the future, he would be glad to act.

Perham said afterwards that while the mediators have apparently abandoned the efforts for an adjustment he proposed to stick to it.

He did not disguise the annoyance at the turn affairs have taken.

### The Chicago Dispute.

Washington, Jan. 7.—Proceedings in mediation under the Erdman act of the controversy between the officials of the railways operating out of Chicago and their switchmen will be begun here next Wednesday. If the mediation is availing the controversy doubtless will be referred to arbitration under the Erdman law.

A joint telegram to the mediators, Knapp and Neill, from Vice President Heberling of the Switchmen's union, and F. O. McElcher, chairman of the general managers' committee, requesting mediation was received today, and the mediators replied that Wednesday was selected for their meeting with the representatives of the switchmen and railroads.

The differences are precisely similar to those which resulted in the strike of the switchmen of the northwest.

### Another Monopoly Heard From.

"Where's that bird dog you used to have?"

"Oh, the milliner down the street complained that he kept her customers away by obstructing the sidewalk."

"Obstructing the sidewalk?"

"Yes. You see he spent all his time down there pointing the birds in the window."—Everybody's Magazine.

The Poor Man's "Race-Horse."  
The whippet has fairly won its reputation of being the fleetest four-footed animal used for racing. Although in appearance a pocket edition of a greyhound, it has more of other blood than of greyhound in its veins. Weighing up to twenty-eight pounds, it can in its best representative covers two hundred and twenty yards in twelve seconds, rather better than the time of the swiftest thoroughbred horse, and at the rate of forty-five miles an hour.

It was in the north of England that the breed and the sport originated. In Yorkshire and Lancashire handicaps are held every year which draw three to four hundred entries, and thousands of spectators crowd around the tracks to see the little

dogs run. In America whippet-racing is of comparatively recent date, fifteen or twenty years at the outside, and beyond the circles of Englishmen has made slow headway. It is noticeable, however, that more bench-shows every year provide for whippet classes.—J. Earl Clauson in Collier's.

## MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes, are among the greatest blessings a mother can bestow upon the little life about to begin. Her happiness and physical comfort will largely govern the proper development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and mental comfort it affords. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mammary glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain and danger when baby comes, and assures a quick and natural recovery for the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.

## TOBACCO IS AGAIN SOLD ON BREAKS

SPIRIT OF OLDEN TIMES PRE-  
VALENT IN TOBACCO TOWN.

No Tobacco Buyers Are in the  
County and Farmers Asking  
Stiff Prices.

Mayfield, Ky., Jan. 7.—There was  
a spirit of old by gone days Tuesday  
in tobacco circles when 38 hog-  
heads were sold on the breaks at  
auction. The auctioneer was J. C.  
Proctor.

The leaf brought from \$6 to  
\$10.60 and the hogs from \$4.80 to  
\$5.60 per hundred.

The bidding was quite spirited  
and it looked like old times to see  
the hogsheads of tobacco lined up  
and sold in this manner. The sales  
were held at the Ligon-Allen ware-  
house and was the first that have  
been sold at auction this season. It  
is probable that the sales will con-  
tinue and be held at least once each  
week, and it is very likely that it  
will be on Tuesday. This was the  
day of the week when sales were  
formerly held.

It has been several years since the  
auction sales have been held in May-  
field, but the prospects are that they  
will again be conducted.

## BARKLEY'S ADDRESS

(Continued from Page One.)

so. I want to congratulate you, and  
the county as well, on having such a  
representative body of men for the  
members of the fiscal court as I now  
see before me, and I feel sure that I  
am not overestimating you when I  
say that you are here imbued with  
the desire to do the best thing for  
the whole people of the county that  
may be possible to do.

"First of all, I wish to impress  
upon you the importance of your position.  
The magistrate's office is some-  
times looked upon by the general  
public as an unimportant position,  
and one to be shunned instead of  
coveted. Taken individually, your  
office may not be as imposing or im-  
portant as that of the higher officers,  
but when taken in your aggregate  
capacity as the fiscal court of the  
county, you become a very important  
body of men. The people look to you  
largely to manage their county busi-  
ness, and they have a right to expect  
that you will manage it with the same  
degree of business sagacity as you  
would exercise in your own business.

"You are given the power under  
the law to lay and collect taxes, and  
to expend those taxes after they are  
collected. You are the general man-  
agers of the county, financially speak-  
ing, invested with certain powers  
which are prescribed by law. You  
occupy the same position toward the  
county as a board of directors occu-  
pies toward a bank, except that the  
board of directors of a bank has a  
wider discretion in the management  
of its business than you have in the  
management of the county. You are  
hedged about in a great measure by  
the statutes and the decisions of the  
courts, which you have no power to  
override.

"You are a court of limited juris-  
diction. You can only do such things  
as the statutes direct you to do, and  
such things as may be necessarily im-  
plied from a reasonable construction  
of the powers granted. While it is  
true that you have the power to levy  
and collect taxes, you are neverthe-  
less limited in expending those taxes  
to the things which the law says you  
may expend them for.

"The average county government  
in Kentucky is loose, and that is not  
only true of this county, but all other  
counties in the state. This is brought  
about by reason of the fact that the  
legislature has neglected the counties  
so far as outlining any detailed plan  
of government is concerned, and a  
careful examination of the law per-  
taining to the management of county  
affairs will reveal the fact that it is  
the merest patchwork. Consequently,  
it has been left largely in the dis-  
cretion of men who were not familiar  
with their powers and limitations and  
as a general rule the county govern-  
ments in this state have been per-  
mitted to become unsystematic and  
a living embodiment of the old adage  
that 'what is everybody's business is  
nobody's business.'

"Therefore, it remains largely for  
you to adopt some plan whereby the  
greatest amount of work may be ac-  
complished at the least cost, and at  
the same time do justice to those  
who are expected to do the work. It  
is no more trouble to run a county  
systematically and lawfully than to  
run a city, or any private enterprise.  
It all depends upon the manner in  
which we start. If we start right, it  
will be easy to remain right. If we  
start wrong, it will be doubly hard  
to face about and get in the right path.

"In the beginning, I would suggest  
that you allow no claims to be paid  
out of the county treasury except  
upon the order of the fiscal court.  
An exception would perhaps have to  
be made of the pauper fund, on ac-  
count of the almost daily calls for  
assistance among the poor. I suggest  
further that when an order is made  
by the fiscal court allowing any claim  
that the order designate what the  
allowance is for, so that anyone may  
inspect it and know what the ex-  
penditure was made for.

**Purchasing Agent.**  
"I suggest also that there ought to  
be some person whose duty it is to  
purchase whatever may be necessary  
for the different county departments.  
It is folly to permit every county officer  
to purchase what he thinks he  
needs for his department. For the  
result is that when the claims are  
presented for allowance, nobody  
knows what it was for, who ordered  
it, nor whether it was needed. It  
could be an easy matter for any  
county officer to make known his  
needs to the proper person, then let  
that person give a written order for  
the supply, and require that the writ-  
ten order accompany the bill when  
presented for payment. By this  
method all claims against the county  
would be properly audited before they  
were allowed. Then when the treas-  
urer makes his settlements, make it  
the duty of the commissioner to check  
his report with the fiscal court order  
book and also with the clerk's stub  
book. This would work then as a  
check against the clerk, the treasurer  
and the fiscal court.

"One of the most important mat-  
ters that you will have to deal with  
is that of the public roads of the  
county. This has been a source of a  
good deal of annoyance in the past,  
and doubtless will be in the future.  
But it should be our desire to give  
the people in the country the very  
best roads that the money available  
will permit. My idea is that we ought  
to distribute the road fund to the  
various ministerial districts in pro-  
portion to the taxes paid by each.  
This seems to be just, and you have  
the power to do it if you should see  
fit.

There are many dirt roads in the

county which cannot be graveled on  
account of their remoteness from  
gravel supplies. Yet they are im-  
portant roads, and the people who  
travel them and live alongside them  
pay taxes, and are entitled to the  
best road that can be provided un-  
der circumstances. Of course, no  
dirt road can be made to remain  
smooth and hard in extreme weath-  
er; but it strikes me that there can  
be made a considerable improve-  
ment in the working of the dirt  
roads.

**Permanent Roads.**  
"I believe also that we ought to  
build as many permanent gravel  
roads as our funds will allow. And  
especially in the Eighth and perhaps  
in the Seventh districts, where there  
is very little of permanent gravel  
roads, we ought to make a special  
effort to relieve the people by at  
least graveled the main roads. I  
should like to see within the next  
four years all the main or what I  
might call "trunk-line" roads graveled  
to the county limits. I should  
like very much to see the Ragland  
road, the Cairo road, the Blandville  
road, the Hinkleville and the Love-  
lacedville roads graveled to the coun-  
ty limits. And I would suggest that  
it seems to me that when we build  
a permanent road, it ought to be  
built wider than has been the cus-  
tom, so as to permit free and con-  
venient passage for the traveling  
public. Of course, it may not be  
possible to do all these things, be-  
cause we will be somewhat limited  
in our funds, on account of the fact  
that we were forced last year to ex-  
pend a large part of the road fund  
for the construction of new bridges.  
But I do not anticipate any very ex-  
tensive bridge building in the near  
future. So we may reasonably ex-  
pect to be able to put most of the  
road fund, after paying the debt that  
already exists, on the roads.

"Under the law, and according to  
a very recent decision of the court  
of appeals, the repairing of the roads  
must be awarded by contract, to the  
lowest and best bidder, except that  
the road supervisor and county judge  
may, in their discretion, designate  
certain roads or parts of roads that  
are to be worked by hands and  
teams hired by the supervisor. I  
think, on the whole it is cheaper  
and more satisfactory to let the  
roads out by contract, and require  
the contractor to execute bond, and  
make him live up to his contract.

The dirt roads of this county can  
be easily kept in repair for \$5,000  
or \$6,000 per year, and you will  
readily see that this will leave a  
very substantial sum to be expended  
on permanent improvement of roads  
and bridges and culverts. We may  
not be able to do as much perman-  
ent improvement the present year as  
we should like on account of the  
fact that we ought to try to wipe  
out whatever debt may have been  
left over by the fiscal court that  
preceded you. Yet it may not be  
necessary to pay all this the first  
year. It might be stretched out  
over two years, so as hardly to miss  
the amount used in paying it off.

**The Records.**  
"Another suggestion which I de-  
sire to make is, that the records of  
the county be inspected by the fiscal  
court, or some one designated by it,  
at least once each year, so that we  
may know exactly at the end of the  
year where we stand, and what we  
have done, and ascertain whether  
the accounts and conduct of all officers  
are correct and as prescribed by  
law. In other words, gentlemen,  
this fiscal court must see that the  
business of the county is transacted  
in a business way, that the accounts  
of all officers connected with the  
county are straight, and that all of-  
ficers whose duty it is to report to  
this court the collection of public  
money shall make their reports at  
the times and in the manner pre-  
scribed by law. No delay nor negli-  
gence in this regard ought to be tol-  
erated. And I am frank to say to  
you that I believe all the officers  
who have entered upon the discharge  
of their duties not only desire, but  
are determined, to adhere strictly

### COUGH INSURANCE

REXALL CHERRY JUICE is the  
most economical insurance against  
coughs you can get. One large  
bottle will insure a whole family  
against coughs, colds and grippe  
for a whole year. Cheap insurance  
isn't it. The first dose—just one  
teaspoonful will relieve your cough  
—four doses will stop your cough  
and a twenty-five cent bottle will  
break up the worst cold you ever  
had and we guarantee it like all the  
Rexall Remedies in fact if you are  
not perfectly satisfied all you have  
to do is return the bottle and get  
your money.

REXALL CHERRY JUICE COUGH  
SYRUP is pleasant to take, tart and

to the law and let the chips fall  
where they may.

"It seems to me that all branches  
of the county government ought to  
be maintained not only on a high  
business and financial standard, but  
upon a high moral standard as well.  
It may, and doubtless will be, neces-  
sary to institute some reforms in  
the conduct of certain institutions  
connected with the county. If  
there is anything wrong in the man-  
agement of any institution connec-  
ted with the county, it is the duty  
of the fiscal court to administer the  
severest treatment in eradicating the  
wrong. We are here as the repre-  
sentatives and servants of the people.  
The offices which we hold were  
created for the benefit of the pub-  
lic, and not as private bounties to  
the office holder. We have been  
intrusted with the management of  
the business of the public, and it  
ought to be our aim to attend to  
that business with as much economy  
and judgment at least as we exercise  
in the management of our individual  
business. This county collects nearly  
\$100,000 of revenue each year. Of  
course, quite a sum of this goes  
into the sinking fund for the pur-  
pose of paying off an old bonded  
debt with which the county has been  
burdened for many years. This debt  
is now \$450,000. But it gives me  
pleasure to say that before our  
terms shall have expired we shall be  
able to pay off \$150,000 of it. So  
that with this amount of money to  
disburse each year, it behooves us  
to exercise the strictest care and  
economy, lest we grow careless of  
our duties and permit it to slip into  
channels never contemplated by the  
law.

**Co-Operation.**  
"Therefore, I deem it the duty not  
only of the members of the fiscal  
court, but of every officer connected  
in any way with the county, to co-  
operate one with the other, to the  
end that we may give to the people  
one of the best, if not the best, ad-  
ministration they have ever had. It  
should be the aim of all men to ex-  
cel in all things honorable. It should  
be the aim of each generation to ex-  
cel the previous generation, and  
likewise it ought to be the aim of  
every set of officers to excel their  
predecessors, if possible. We are  
not here to see how much money we  
may be able to spend, but to see how  
well we may spend that which we  
have. And in order that we may  
expend it well, I ask the hearty co-  
operation of the fiscal court and all  
the county officers. I have a right  
to expect this of you, and you have  
a right to expect it of me. We  
should be harmonious. We are not  
here for partisan political purposes.  
We are here to serve the people. We  
are not here to 'get even' with some  
man who may not like us. Neither  
are we here to throw special favors  
in the path of those who may like  
us. We should be as impartial as  
it is possible for human beings to  
be. The poorest man in the county  
ought to feel that he will be treated  
as fairly and with as much considera-  
tion as the most powerful. We  
ought to conduct ourselves, both  
publicly and privately, in such a  
manner that the people will have  
confidence in us, and take a pride in  
upholding our hands when we are  
trying to right. If we shall fail to  
measure up to the requirements of  
our positions through any lack of  
effort on our own part, we ought to  
be condemned, if we do our best,  
and yet fail to achieve our own  
ideals of our public duty, we will  
at least have the satisfaction of  
knowing that we tried to do our  
duty as we were given the light to  
see it, which is sufficient reward in  
itself.

"Let us follow the law, as it is  
written, as nearly as possible, for  
this is our only guide. It will be  
your duty to keep yourselves reason-  
ably familiar with the details of  
your duties. You ought not to allow  
any claims against the county that  
are illegal, or unjust. The county  
attorney will be here to assist you,  
and I shall be glad to advise you  
whenever the occasion demands. You  
will make mistakes. No body of  
men ever assembled together for  
four years without making them.  
Yet sometimes a mistake may be  
used to an advantage, if we will  
profit by it. You will doubtless be  
called upon many times to do things  
that you cannot do. There is some-  
times as much virtue in refusing to  
do a thing as there is in doing it.  
This is a large and populous county,  
and of course, it takes a good deal  
of money to run it. For all its pub-  
lic property should be kept in reason-  
able and convenient repair. The  
public buildings and grounds should  
be kept in a slightly condition, and  
made comfortable. The county poor  
farm should be carefully watched  
over, both as to the character and  
method of its maintenance, and the  
fiscal court should see that the in-  
mates are given the proper atten-  
tion, moral, as well as physical.

"I would advise you to study care-  
fully the statutes, so that you may  
become familiar with your powers  
and limitations—the things you can  
do, as well as those you can  
not do.

"This is a good county, and its  
finances are in reasonably good con-  
dition. The people, as a rule, are  
prosperous and well to do; and  
while it is true that they are ex-  
acting of their public officials, they  
have a right to be. They have a  
right to expect them to be zealous  
and faithful, and I am sure that  
when they believe their public ser-  
vants are trying to be zealous and  
faithful, they will cheer and encour-  
age them. We cannot hope to please  
or satisfy every person. If we try  
to do that, we will please nobody.  
But let us keep steadily in view the  
fact that we are here attending to  
other peoples' business, and that  
they have a right to expect that we

will attend to it well. And to this  
end, gentlemen, I most earnestly ask  
the help and co-operation of the fiscal  
court and all the officers of the  
county. The responsibility is on your  
shoulders and you must share it.  
Let us have no strife, no factions,

order that we may reach the right  
goal. I have confidence enough in

If you had thought a heart  
Was worth the keeping,  
When passion could impart  
More than the heart's quick leap-  
ing!

If you had taken pains  
To guard love's treasure,  
When love forewent refrains  
Of dalliance and leisure!

Had you but done these things,  
Love would have grown new wings  
For happy, wider flight  
And deeper-felt delight!

## EDWIN MORGAN

## LEAVES CUBA

LAST ACT WAS RELATIVE TO THE UNION TERMINAL.

American Government Has Withdrawn Its Objection to the Proposed Exchange.

## THE OFFICIALS SAID GOOD-BYE

Havana, Jan. 7.—The long mission of Edwin V. Morgan, the American minister to Cuba, terminated today, when he sailed for the United States, leaving Norval Richardson, second secretary of the legation, as charge d'affaires. Mr. Morgan was escorted to the steamer by all the members of the diplomatic corps, representatives of the Cuban government and army and the most prominent representatives of all the foreign colonies.

Minister Morgan's last official act was to notify President Gomez that the American government had withdrawn its objection to the proposed exchange of the Western Railway's Villanueva station to the Prado for the lands of the arsenal, on which the Western and United Railways of Havana, both English companies, will erect a great union terminal.

The Washington administration objected to the control of the terminal and water front by foreign corporations, and also to the proposed loan of several million dollars by the railroads to the Cuban government, with which to erect a palace and other government buildings on the Villanueva site. These conditions have now been eliminated, the railways agreeing to unite and form an American terminal company.

They will also erect an arsenal, steel wharves for governmental use and a crematory for the destruction of garbage and rubbish and carry out other improvements.

Considerable surprise has been expressed that the government is willing to make the exchange, in view of the fact that the arsenal area much exceeds that at Villanueva, and also has a most valuable water front, whereas the latter site is not available for government purposes, except for the erection of public buildings, for which there are no funds. President Gomez intends to send a special message to congress on the subject.

## MARRIAGE

SPEEDILY FOLLOWS FREEDOM FROM THE YOKE.

Alonso Powers and Mrs. Lizzie Jones Are United in Wedlock at Bride's Home.

Granted his divorce in circuit court yesterday morning at 10:30 o'clock, Alonso Powers, 162 Clements street, lingered but a few hours in solitude. Last night at 7 o'clock he was married to Mrs. Lizzie Jones. He was granted a divorce from Effie Powers. The ceremony was performed last night at 7 o'clock at the home of the bride's parents, Mr. and Mrs. John Vasseur, 643 Elizabeth street, by the Rev. Ben Deevers. The marriage was witnessed by a large number of friends and relatives of the couple. The bride is a popular young woman of Mechanicsburg, while the groom is a machinist at the Lack Singletree company. The couple will reside at 162 Clements street.

## River Notes.

There was little doing around the river today. Ice is becoming troublesome once more and resulted in the George Cowling, Ohio and Dick Fowler tying up yesterday. The ferryboat Bettie Owen, however, did not give up and will run as long as possible.

The towboat Condor came up last night from Joppa, Ill., with several

empty. She took the W. T. Hardison's tow this morning and returned to Joppa.

Capt. James Browninski came up on the Condor last night and returned with his boat today. He will come back here tomorrow.

There was no Cairo packet again today, the Dick Fowler lying up at the wharfbat.

The towboat W. T. Hardison ar-

rived this morning from the Tennessee river with a tow of railroad ties.

Last night the towboat Egan, of the West Kentucky Coal company's fleet, returned from the south, where she recently grounded part of her tow of coal.

A pipe that burst on the towboat Cumberland last night, at the foot of Kentucky avenue, nearly resulted in another steamboat disaster here, but

the prompt assistance of the tow-

boat Condor saved her from sinking.

Pumps were set to work and in a short time she was out of danger.

The leak was discovered about 9:30 o'clock and a signal of distress was blown. The Condor, which had just

come in a short time from Joppa,

rushed over to where the Cumberland was moored, alongside the Kentucky,

and bringing navigation here to a dead

standstill.

Cumberland came here a few days ago from Nashville, where she has been doing government work.

The outlook is for more ice here.

Cold weather yesterday and last night added to the situation and ice is rapidly forming around the local harbor. It is believed that the conditions will be worse than last week and bring navigation here to a dead

standstill.
